

Vacuum Defender

ANY JOB. ANY SIZE. ANY PLACE.

The **Vacuum Defender** is recommended for restoration work and has been designed for removing potentially damaging debris from the insulation before it comes in contact with the vacuum fan blades. This innovative design reduces the wear and tear on the vacuum fan blades, engine and vacuum housing. The Vacuum Defender helps prolong the life of your vacuum.

- Abrasion Resistant (AR) deflector plate
- Design allows for debris emptying while vacuum is in use
- 6" inlet and outlet for maximum production
- Lightweight all welded design
- Wheels for easy maneuverability
- Access door with latches for solid closure to reduce leakage

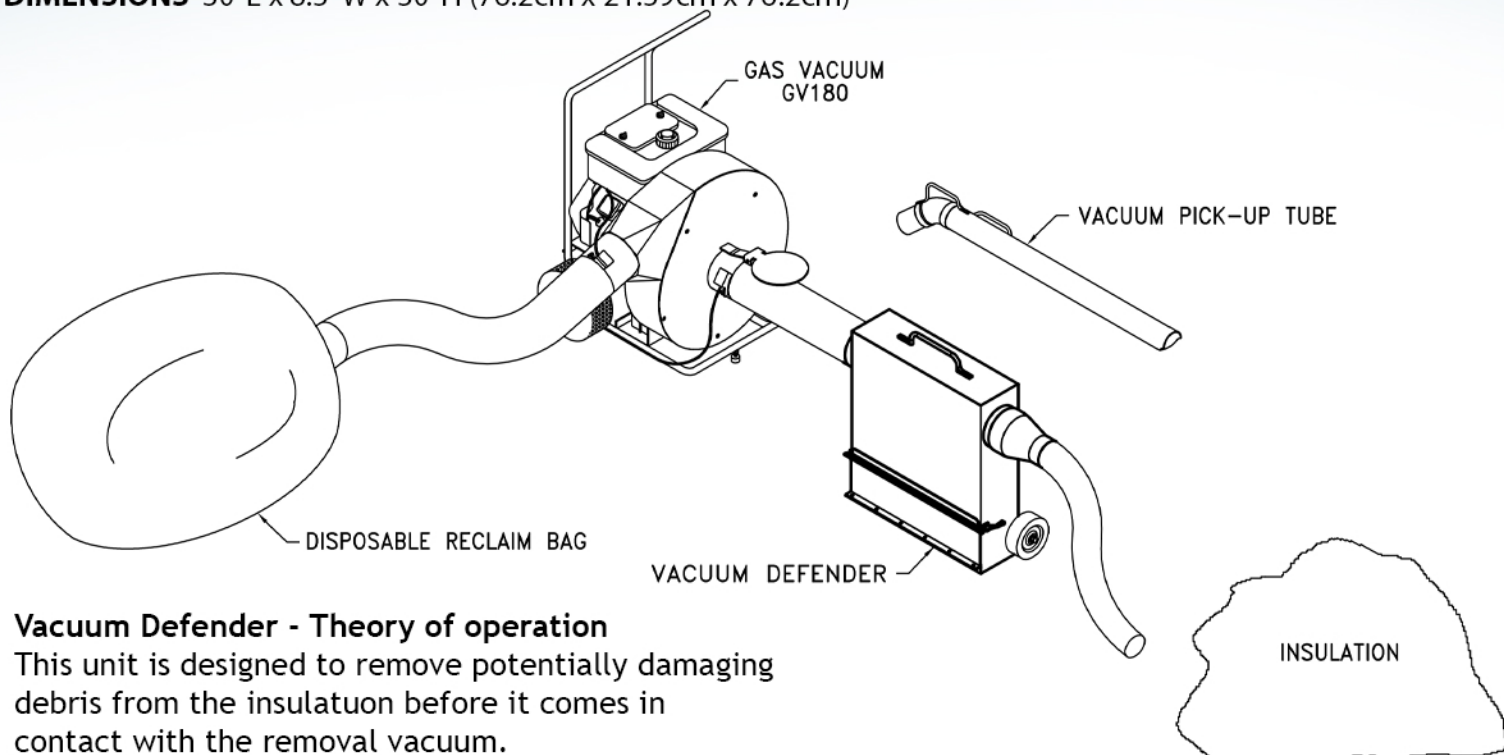

AMERICAN MADE.

Backed by a manufacturer's 2-YEAR WARRANTY

Vacuum Defender - Theory of operation

This unit is designed to remove potentially damaging debris from the insulation before it comes in contact with the removal vacuum.

Note: All visible larger objects and debris should **always** be removed first before vacuuming - utilize the GV Defender as a preventative process step.

OPTIONAL REDUCER KIT

- 1 - 6" to 4" reducer
- 1- 4" clamp
- 1 - 6" clamp
- 1 - 6" hose section
